Exercise 3: Logical Operators: And, Or, Not

Write a SELECT command for each of the following queries:

1. Which prime ministers belonged to the Liberal party and were commissioned after 1950?

2. List the names of prime ministers who were married by age 30 or after 1900?

3. Find the names of prime ministers who had golf or tennis as a recreation?

4. Retrieve full details of marriages where the year of marriage was earlier than 1910, the prime minister was at least 35 when he married, and there were not less than two children from the marriage.

5. List the name and year of birth for prime ministers who were born in Tasmania or represented Queensland and also served at least 4 years or died aged 60.

6. Which prime ministers were born in or represented Victoria, but not both?
