### ACE Program Standards & Expectations

ACE program students are expected to actively and positively engage in all aspects of school life, both in and outside of the classroom. Very high standards of effort are expected at all times, in all learning areas and through enrichment opportunities. Students must meet and maintain set standards to obtain a position and remain in the program. These include:

- maintaining a 90% attendance rate and attending class on time.
- achieving a minimum B academic standard in ALL ACE classes (Maths, English, Science, Humanities).
- achieving a minimum C academic standard in all other subjects.
- maintaining a minimum VERY GOOD for both effort and behaviour for ALL curriculum areas.
- following all school expectations as signed in the Flagstone State Community College Enrolment Agreement and Student Code of Conduct.
- meeting homework, bookwork and assignment expectations (including due dates).
- being organised and prepared for learning by bringing all necessary books, equipment, charged laptop and materials to class.

## ACE Review Process

ACE students are reviewed in a cyclic manner throughout the year. Teachers will identify students in our ACE classes who are not yet meeting the ACE standards and expectations. The aim of this process is to work with students to reflect on their learning and set goals / strategies that will allow them to meet the above ACE criteria by the end of the review timeline. At the end of the review process, a decision is then made as to whether students continue in the ACE program.

### Student Declaration:

I, \_\_\_\_\_ acknowledge and am aware of the expectations of the ACE Program, specifically
